

2024 // ANNA BRIGHT / SCORPEUS 3s

PROPULSION CORE

The patent-pending propulsion core allows for explosive power on drives, counters and speed ups, but with refined feel and control on resets, drops and dinks.

NFC CHIP ACCESSIBLE

Elevate your game with the new JOOLA NFC chip-enabled pickleball paddles! Tap your phone to the handle to authenticate your paddle. Unlock an exclusive product experience through JOOLA CONNECT.

CHARGED CARBON SURFACE

An additive bonding treatment that strengthens the surface of the paddle to provide a crisper feel with greater energy return.

ENLARGED SWEET SPOT

Specially engineered paddle shape designed for a larger striking area that amplifies the sweet spot and provides an ideal balance between power and control. The wider body increases the twist weight, empowering players to perform at their best at the non-volley zone.
