

2024 // PERSEUS / MOD-TA 15

PROPULSION CORE

The patent-pending propulsion core allows for explosive power on drives, counters, and speed ups, but with refined feel and control on resets, drops and dinks.

NFC CHIP ACCESSIBLE

Unlock the JOOLA experience with NFC chip-enabled pickleball paddles. Tap your phone to the handle to authenticate your paddle and unlock an exclusive product experience through JOOLA Connect

CHARGED CARBON SURFACE

An additive bonding treatment that strengthens the surface of the paddle to provide a crisper feel with greater energy return. Results in impressive feedback with a poppier response.

REACTIVE HONEYCOMB CORE

Specially tuned for the high-level player to maximize the consistency of the bounce and feel necessary for every shot.

HYPERFOAM EDGE WALL

Specialized foam injected into the perimeter of the paddle adding weight and stability, increasing the sweet spot for consistent edge to edge performance

SWEET-SPOT OPTIMIZED SHAPE

Specially engineered paddle shape provides a larger sweet spot for optimal hitting feel and performance
