

2024 // TYSON MCGUFFIN / MAGNUS CAS "THE LION"

CARBON ABRASION SURFACE

Our CAS technology utilizes a multi-step, abrasion sand-blasted process, creating a unique, textured surface for increased spin.

NFC CHIP ACCESSIBLE

Elevate your game with the new JOOLA NFC chip-enabled pickleball paddles! Tap your phone to the handle to authenticate your paddle. Unlock an exclusive product experience through JOOLA CONNECT.

DOUBLE ARMOR EDGELESS DESIGN

Enhanced with our innovative Double Frame Carbon Fiber Construction for increased performance and stability, the new edgeless Magnus CAS has an enlarged sweet spot to improve shot precision. The lightweight design ensures an aerodynamic profile that allows for swifter swings but also enhances the maneuverability. The new design dampens unwanted vibrations allowing players to experience a dynamic and responsive play style on the court.

ELONGATED BODY

A longer hitting surface combined with a shorter handle for added reach and power.
